SELF FASTENING DISCS FOR SURFACE PREPARATION

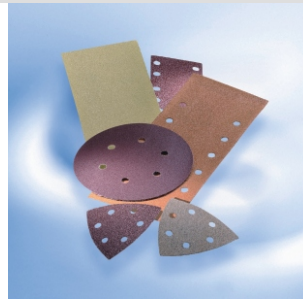

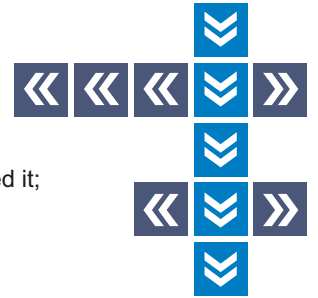

The modern industrial environment has passed to a new age which needs high quality and know how. There are higher expectations for the final product and this drives the dynamic manufacturers to carefully select the materials that effect on their final product quality.

TECHNOLIANTIKI based on the values of total quality management and higher level of technical support has to offer the most developed range of industrial abrasive products as it stocks large quantities of quality coated abrasives to support you on the best possible way.

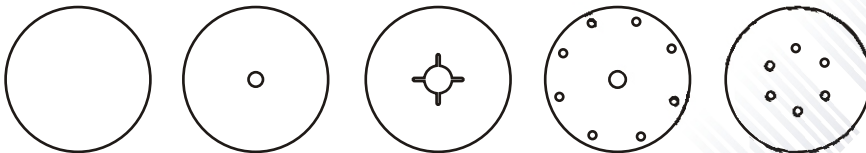

With a permanent stock of jumbo rolls that exceeds the 10.000 sq.mtrs. and a productivity that reaches the 10 million self fastenning discs per year we can ensure you that you can have the discs you need when you need it; in any quantity.

Our modern conversion equipment ensures high quality belt joints that will meet the most demanding abrasion situation following the standards under the ISO 9001:2000 quality system.

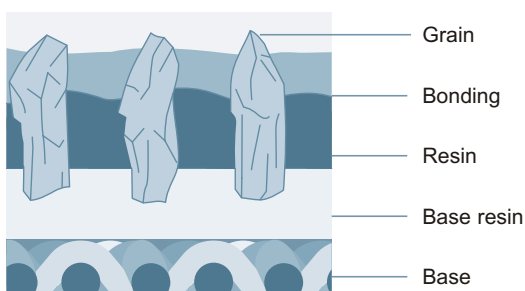

We are ready to discuss the most suitable delivery plan that will best fit on your production needs in a flexible and cost effective way. Why not to take advantage of our quality, know how, expertise and competitive pricing right now.

Technological overview of the coated abrasives

The electrostatic distribution of the abrasive grains on the top of the base, ensures a uniform and ideal positioning of the grain for higher levels of cutting and better service life of the abrasive. The coating is the evolution of the abrasives technology that gives better results and lower temperature at the point of abrasion. As lower the temperature is higher is the service life.

SELF FASTENING DISCS FOR SURFACE PREPARATION

Abrasive paper, self-fastening PS 21 FK

Close coating, tear-resistant backing and high-quality self-sharpening Aluminium oxide for a long service life and high grinding performance for working on metal especially on stainless steel

Available grits:

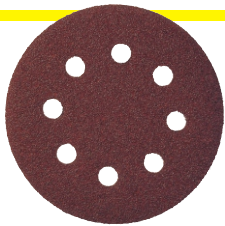

16	120	■	500	
24	150	■	600	
30	180	■	800	
36	220	■	1000	
40	■	240	■	1200
50	280	■	1500	
60	■	320	■	2000
80	■	360	■	
100	■	400	■	

Applications:

Steel	●
Stainless steel	●

Bonding agent
Resin
Grain
Alumina zirconia
Coating
Close
Backing
F

Abrasive paper, self-fastening PS 22 K

Abrasive paper with close coating and high stock removal rate for an uniform scratch pattern on wood and metal

Available grits:

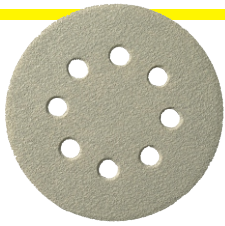

16	120	■	500	
24	■	150	■	600
30	180	■	800	
36	220	■	1000	
40	■	240	■	1200
50	280	■	1500	
60	320	■	2000	
80	360	■		
100	400	■		

Applications:

Stainless steel	●
Paint/Varnish/Filler	○
Wood	●
Plastic	○

Bonding agent
Resin
Grain
Aluminium oxide
Coating
Semi-open
Backing
E

Abrasive paper, self-fastening PS 33 BK / PS 33 CK

High-quality abrasive paper, especially for suited for paint, varnish and filler

Available grits:

16	120	■	500	■
24	150	■	600	■
30	180	■	800	■
36	220	■	1000	■
40	■	240	■	1200
50	280	■	1500	■
60	320	■	2000	■
80	360	■		■
100	400	■		■

Applications:

Paint/Varnish/Filler	●
Wood	○

Bonding agent
Resin
Grain
Aluminium oxide
Coating
Semi-open
Backing
B/C
